Compendium of best practices in social inclusion

50 examples of projects in the partner countries

The project partners of the project CLOSER - Rethinking Social Inclusion have collected good examples of initiatives, which contribute to social inclusion of disadvantaged groups of people.

The projects were selected on a basis of common criteria, such as sustainability, long-term impact, transferability, innovation and involvement of young people.

The projects are implemented by a diverse mix of organisations – NGOs, schools, universities, youth groups, municipalities and communities in France, Georgia, Italy, Slovakia and Spain.

All initiatives from the Compendium are featured on the project website in 5 languages.

Compendium showcases social inclusion of:

- Disabled people through sport and cultural activities, as well as employment;
- Homeless people by providing them social services,
- Roma people through involving them and major population in common events and promoting better understanding
- Migrants by offering employment opportunities,
- War victims (IDP's - displaced people) by providing them sustainable welfare;
- People with criminal background,
- Vulnerable young people and children.
